

Polka dot day

Polka dots all the way

Let's give support to all patients with psoriasis by wearing polka dots on Saturday 29th of October 2022, the World Day of Psoriasis (WPD).

On city and village squares, playgrounds and schoolyards, come join hands and create zone BIG HUMAN POLKA DOT - a circle of us, people with polka dots. Let's make others aware we know well psoriasis is not an infectious disease!

Nobody suffering from psoriasis or psoriatic arthritis should be left alone with their fears and worries. Children and adults with this disease belong to one team!

Follow us on websites:
